

Pursuant to 47CFR73.1560(d) and 47CFR73.1635, Colorado Springs Radio Broadcasters, Inc., licensee of KILO-FM, Colorado Springs, CO, hereby requests Special Temporary Authorization to continue reduced power operation from its licensed auxiliary facility.

FCC Notice of a temporary reduction in power was filed by KILO-FM on 6/29/2026. The request is required due to a transmitter power supply failure, rendering the main transmitter inoperative until such time that repair parts can be manufactured and delivered by the manufacturer (GatesAir, Inc) to KILO-FM, and transmitter operation confirmed to be within tolerance for KILO-FM's main license authorization.

KILO-FM is licensed for 26.8kW TPO (78kW ERP).

While repairs are being completed, KILO-FM will operate at 8,000 Watts ERP from its licensed (Aux) site antenna.

If there are questions regarding this notice, please notify the undersigned.

Cordially,
Stu Albert, Chief Engineer
KIL0-FM
For Colorado Springs Radio Broadcasters, Inc.
