

**STATEMENT OF WILLIAM J. GETZ
MULTIPLE OWNERSHIP SHOWING
PURSUANT TO
SECTION 73.3555 OF THE FCC RULES**

I am a Radio Engineer, an employee in the firm of Carl T. Jones Corporation, with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission.

The Applicant holds cognizable interest in numerous AM and FM radio stations located in various radio markets ("subject stations"). Some of the subject stations are licensed to communities located within a Nielsen Radio Metro Area and some are licensed to communities located outside of a Nielsen Radio Metro Area. Therefore, in many instances, the common ownership of the subject stations must be compliant with Section 73.3555 of the FCC Rules as it applies to both the contour-defined radio market and the Nielsen-rated Geographic radio markets. This material demonstrates that the combination of stations under common control is compliant with Section 73.3555(a) of the FCC Rules as it applies to contour-defined radio markets.

The Applicant has identified eleven separate markets where a contour-defined market analysis was required to determine compliance with the multiple ownership rules. Each of these markets is discussed below and all are compliant with Section 73.3555(a) of the FCC Rules as it applies to contour-defined radio markets.¹

¹ For the FM stations considered herein, the principal community contour is the predicted 3.16 mV/m (70 dBu) contour computed in accordance with Section 73.313 of the FCC Rules. For the AM stations considered herein, the principal community contour is the predicted daytime 5.0 mV/m groundwave contour computed in accordance with Section 73.183 of the FCC Rules. All stations represented herein are operating full service commercial or noncommercial radio stations and operate from transmitter sites located within 92 kilometers of the perimeter of the Subject Station's mutual 70 dBu contour overlap area.

Mariposa Contour-Defined Market #1

Subject station(s) community of license located outside of Rated Market:

- KDJK(FM), Mariposa, CA (Fac. ID 11241)

As illustrated in Exhibit A, the subject station's principal community contour overlap involves no overlap with any stations in which the Applicant holds attributable interest. Therefore, there are no contour-defined market multiple ownership implications involving KDJK(FM).

Abilene Contour-Defined Market #2

Subject station(s) community of license located outside of Rated Market:

- KBCY(FM), Tye, TX (Fac. ID 68642)
- KCDD(FM), Hamlin, TX (Fac. ID 64656)
- KHXS(FM), Merkel, TX (Fac ID 50790)
- KTLT(FM), Anson, YX (Fac ID 53194)

As illustrated in Exhibit B, the principal community contours of the four stations overlap, and the radio market is defined by the total principal community contour area of the four subject stations. Exhibit B also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the market. Table B-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 4 FM stations and 0 AM stations in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iii) of the FCC Rules, the applicant is permitted to own four radio stations (all in the same service) provided the market contains at least fifteen total stations. As shown in Exhibit B, the contour-defined radio market contains at least 23 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and the overlapped by the city-grade contours of at least 19 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Wichita Falls Contour-Defined Market #3

Subject station(s) community of license located outside of Rated Market:

- KLUR(FM), Wichita Falls, TX (Fac ID 58741)
- KOLI(FM), Electra, TX (Fac ID 78344)
- KQXC-FM, Wichita Falls, TX (Fac ID 55380)
- KYYI(FM), Burkburnett, TX (Fac ID 58740)

As illustrated in Exhibit C, the principal community contours of the four stations overlap, and the radio market is defined by the total principal community contour area of the four subject stations. Exhibit C also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the market. Table C-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 4 FM stations and 0 AM stations in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iii) of the FCC Rules, the applicant is permitted to own four radio stations (all in the same service) provided the market contains at least fifteen total stations. As shown in Exhibit C, the contour-defined radio market contains at least 32 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and the overlapped by the city-grade contours of at least 28 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Lake Charles Contour-Defined Market #4

Subject station(s) community of license located outside of Rated Market:

- KBIU(FM), Lake Charles, LA (Fac ID 17019)
- KKGB(FM), Sulphur, LA (Fac ID 106)
- KQLK(FM), De Ridder, LA (Fac ID 9029)
- KYKZ(FM), Lake Charles, LA (Fac ID 38601)
- KAOK(AM), Lake Charles, LA (Fac ID 67330)

As illustrated in Exhibit D, the principal community contours of the five stations overlap, and the radio market is defined by the total principal community contour area of the five subject stations. Exhibit D also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the market. Table D-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 4 FM stations and 1 AM station in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iii) of the FCC Rules, the applicant is permitted to own five radio stations (four in the same service) provided the market contains at least fifteen total stations. As shown in Exhibit D, the contour-defined radio market contains at least 30 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 5 subject stations and overlapped by the city-grade contours of at least 25 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Dwight Contour-Defined Market #5

Subject station(s) community of license located outside of Rated Market:

- WJEZ(FM), Dwight, IL (Fac. ID 19211)

As illustrated in Exhibit E, the subject FM station's principal community contour overlaps only one AM station in which the Applicant holds attributable interest. Therefore, there are no contour-defined market multiple ownership implications involving WJEZ(FM).

Jefferson City Contour-Defined Market #6

Subject station(s) community of license located outside of Rated Market:

- KLIK(AM), Jefferson City, MO (Fac ID 68147)
- KBBM(FM), Jefferson City, MO (Fac ID 68148)

As illustrated in Exhibit F, the principal community contours of the stations listed above overlap with nearby stations in which the Applicant holds attributable interest forming four station radio market defined by the total principal community contour area of four subject stations. Exhibit F also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the market. Table F-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 3 FM stations and 1 AM station in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iv) of the FCC Rules, the applicant is permitted to own four radio stations (three in the same service) provided the market contains at least four other stations in which the application has no cognizable interest (i.e. the applicant cannot have cognizable interest in more than 50% of the market stations). As shown in Exhibit F, the contour-defined radio market contains at least 39 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and overlapped by the city-grade contours of at least 35 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Kokomo Contour-Defined Market #7

Subject station(s) community of license located outside of Rated Market:

- WWKI(FM), Kokomo, IN (Fac ID 60133)

As illustrated in Exhibit G, the principal community contour of the station listed above overlaps with a nearby station in which the Applicant holds attributable interest forming two station radio market defined by the total principal community contour area of two subject stations. Exhibit G also depicts the principal community contours for other stations in which the Applicant holds no

cognizable interest which are counted in the market. Table G-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 2 FM stations and 0 AM stations in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iv) of the FCC Rules, the applicant is permitted to own two radio stations (both in the same service) provided the market contains at least two other stations in which the application has no cognizable interest (i.e. the applicant cannot have cognizable interest in more than 50% of the market stations). As shown in Exhibit G, the contour-defined radio market contains at least 30 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 2 subject stations and overlapped by the city-grade contours of at least 28 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Columbus Contour-Defined Market #8

Subject station(s) community of license located outside of Rated Market:

- WKOR-FM, Columbus, MS (Fac ID 24531)
- WMXU(FM), Starkville, MS (Fac ID 57710)
- WNMQ(FM), Columbus, MS (Fac ID 54535)
- WSMS(FM), Artesia, MS (Fac ID 6664)

As illustrated in Exhibit H, the principal community contours of the four stations overlap, and the radio market is defined by the total principal community contour area of the four subject stations. Exhibit H also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the market. Table H-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 4 FM stations and 0 AM stations in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iii) of the FCC Rules, the applicant is permitted to own five radio stations (all in the same service) provided the market contains at least fifteen total

stations. As shown in Exhibit H, the contour-defined radio market contains at least 25 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and overlapped by the city-grade contours of at least 21 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Sharon Contour-Defined Market #9

Subject station(s) community of license located outside of Rated Market:

- WLLF(FM), Mercer, PA (Fac ID 6653)
- WQXK(FM), Salem, OH (Fac ID 37548)
- WYFM(FM), Sharon, PA (Fac ID 60006)
- WWIZ(FM), West Middlesex, PA (Fac ID 23437)
- WRQX(AM), Salem, OH (37547)
- WPIC(AM), Sharon, PA (Fac ID 60005)

As illustrated in Exhibit I, the principal community contours of the stations listed above overlap with nearby stations in which the Applicant holds attributable interest forming seven station radio market defined by the total principal community contour area representing the maximum concentration of attributable stations involving the stations listed above. Exhibit I also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the market. Table I-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 4 FM stations and 3 AM stations in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(ii) of the FCC Rules, the applicant is permitted to own seven radio stations (four in the same service) provided the market contains at least 30 total stations. As shown in Exhibit H, the contour-defined radio market contains at least 48 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 7 subject stations and overlapped by the city-grade contours of at least 41 other stations in which the

applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Wilmington Contour-Defined Market #10

Subject station(s) community of license located outside of Rated Market:

- WGNi(FM), Wilmington, NC (Fac ID 8581)
- WKXS-FM, Leland, NC (Fac ID 25998)
- WMNX(FM), Wilmington, NC (Fac ID 8584)
- WWQQ-FM, Wilmington, NC (Fac ID 28163)
- WAAV(AM), Leland, NC (Fac ID 25999)

As illustrated in Exhibit J, the principal community contours of the five stations overlap, and the radio market is defined by the total principal community contour area of the five subject stations. Exhibit J also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the market. Table J-1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 4 FM stations and 1 AM station in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iii) of the FCC Rules, the applicant is permitted to own five radio stations (four in the same service) provided the market contains at least fifteen total stations. As shown in Exhibit J, the contour-defined radio market contains at least 27 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 5 subject stations and overlapped by the city-grade contours of at least 22 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Florence Contour-Defined Market #11

Subject station(s) community of license located outside of Rated Market:

- WCMG(FM), Latta, SC (Fac ID 72929)

- WWFN-FM, Marion, SC (Fac ID 11653)

As illustrated in Exhibit K, the principal community contours of the stations listed above overlap with nearby stations in which the Applicant holds attributable interest forming two different four station radio markets. Exhibit K also depicts the principal community contours for other stations in which the Applicant holds no cognizable interest which are counted in the markets. Table K-1 and Table K-2 contain each station's call sign, city of license, state, channel of operation, and technical facilities of the stations counted in each contour-defined radio market.

In both cases, the applicant will own or control 3 FM stations and 1 AM stations in the contour-defined radio market. Pursuant to Section 73.3555(a)(1)(iv) of the FCC Rules, the applicant is permitted to own four radio stations (three in the same service) provided the market contains at least four other stations in which the application has no cognizable interest (i.e. the applicant cannot have cognizable interest in more than 50% of the market stations). As shown in Exhibit K, the contour-defined radio markets contain at least 18 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and the overlapped by the city-grade contours of at least 14 other stations in which the applicant holds no cognizable interest]. Accordingly, the contour-defined radio market satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

This statement and the supporting Exhibits and Tables were prepared by me or under my direct supervision and are believed to be true and correct.
