

Description of Transaction/Changes in Interests

This Application is one of several contemporaneously filed FCC Form 2100 Schedule 316 applications each of which requests Commission consent to the involuntary pro forma transfer of control of licenses held by indirect, wholly-owned subsidiaries of Cumulus Media Inc. (“CMI”).

On March 4 and 5, 2026, CMI, the ultimate parent entity of the licensee under this Application, and certain of its direct and indirect wholly-owned subsidiaries (collectively, the “Debtors”), filed a series of voluntary petitions for bankruptcy with the United States Bankruptcy Court for the Southern District of Texas, Houston Division (“Bankruptcy Court”) seeking relief under the provisions of Chapter 11 of the United States Bankruptcy Code to effectuate a restructuring of the debt obligations of the Debtors. As a result, each of the Debtors is now operating as a debtor-in-possession under the Bankruptcy Court’s oversight.¹ The Debtors anticipate that they will continue business operations substantially in the ordinary course throughout the Chapter 11 process. A copy of the petition filed for CMI, the indirect 100% parent of the licensee under this Application, is included as an Attachment to this Application.

The ownership structures, officers and directors, and attributable parties with respect to CMI, the other Debtors, and the licensee under this Application remain unchanged following the filing of the bankruptcy petitions and the transition of CMI and the other Debtors to debtor-in-possession status.

The CMI licensee subsidiaries that have filed involuntary pro forma transfer of control applications with the Media Bureau are set forth below:

Cumulus Licensing LLC
Radio License Holding CBC, LLC
Radio License Holding SRC LLC
Radio License Holdings LLC
CMP Houston-KC, LLC
Cumulus Licensing Holding Company LLC
KLIF Lico, Inc.
KPLX Lico, Inc.

¹ See *In re Cumulus Media Inc., et al.*, Case No. 26-90346 (ARP) (Bankr. S.D. Tex.) (Jointly Administered).

The specific authorizations held by each of the above license subsidiaries are identified in an Attachment to this Application.
