Notification of Silent Status and Request for Silent STA

NPG Licenses, LLC (“NPG”), licensee of K223CU, Colorado Springs, CO (Fac. ID No. 155345) (the “Station”), hereby notifies the Commission that the Station is currently silent as of Wednesday, December 4, 2024, due to an unexpected inability for the Station’s transmitter to stay powered on.

NPG is currently in the process of locating and scheduling a tower crew to climb the tower and ascertain the issue preventing the Station from regular broadcast operations. However, due to scheduling and budgeting circumstances, as well as the current uncertainty regarding the underlying issue affecting the transmitter, NPG presently expects that the Station’s silence will take longer than 30 days to resolve. Consequently, out of an abundance of caution, NPG respectfully requests a full 180 days of STA.
