Re: Mainstreet Media of Colorado, LLC (MMCL)
KKCL(AM), Golden, CO
Facility Identification Number: 161314
Special Temporary Authority (STA)
BESTA-20191205AAL

Dear Mr. Lontine:

This is in reference to the request filed on December 5, 2019. MMCL requests an extension of the STA granted on December 17, 2018, as last modified on June 11, 2019, to continue operating from an alternate site to allow time to file the required FCC Form 301 minor change construction permit application.[1] In support of the request, MMCL states that a brief extension is needed to finalize use of a new transmitter site (due to the loss of the old licensed transmitter site).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and MMCL may continue to operate using the following facilities:

Geographic coordinates	39° 45′ 59″ N, 105° 14′ 12″ W (NAD 1927)
Frequency	1550 kHz

[1] KKCL(AM) is licensed for operation on 1550 kHz with 0.99 kW ND (day) and 0.35 kW DA (night).

Hours of operation	day and night
Operating power	0.2 kW (day), 0.0875 kW (night)
Antenna type	36.6 meter long wire antenna

MMCL must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310. MMCL must submit a brief e-mail to my attention to note the date the FCC Form 301 application was filed.

This authority expires on **June 26, 2020.**

Sincerely,

Joseph Szczesny, Engineer
Audio Division
