Re: Mainstreet Media of Colorado, LLC (MMCL)
KKCL(AM), Golden, CO
Facility Identification Number: 161314
Special Temporary Authority (STA)
BESTA-20220805AAD

Dear Mr. Lontine:

This is in reference to the request filed on August 5, 2022. MMCL requests a further extension of the STA granted on December 17, 2018, to continue operating from an alternate site to allow time to file the required FCC Form 302 application to obtain a new license (after BP-20220805AAI has been granted).[1] In support of the request, we estimate further action on BP-20220805AAI will take place sometime within the next four months (if no problems are found).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and MMCL may continue to operate using the following facilities:

Geographic coordinates	39° 45′ 59″ N, 105° 14′ 12″ W (NAD 1927)
Frequency	1550 kHz
Hours of operation	day and night
Operating power	0.2 kW (day), 0.0875 kW (night)

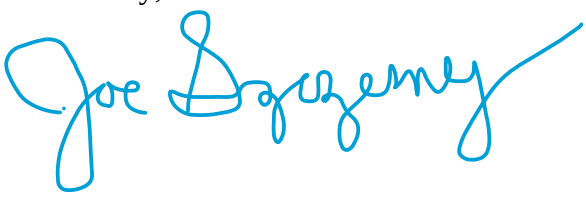
[1] KKCL(AM) is licensed for operation on 1550 kHz with 0.99 kW ND (day) and 0.35 kW DA (night), and BP-20220805AAI proposes a new transmitters site with 1 kW day/0.21 kW night using an ND antenna.

Antenna type 36.6 meter long wire antenna

MMCL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310.

This authority expires on **February 16, 2023.**

Sincerely,



Joseph Szczesny, Engineer
