EXHIBIT 6

The license application filed on September 20, 2005 requested a waiver of Section 73.1125 to permit authorization of the main studio to a location 1.9 miles beyond the 25-mile limit specified in Section 73.1125(a)(3). Recently, the main studio was relocated to a new location in Aspen, Colorado, 2,300 feet beyond the specified 25-mile limit (less than one-half mile), approximately the equivalent of three to four city blocks (see Attachment A). Whereas the driving time for the 1.9 miles was estimated at 2½ minutes, the driving time for 2,300 feet is less than a minute. The justification for the waiver request set forth in Exhibit 6 (incorporated by reference herein) pragmatically is to demonstrate that the main studio relocation site (at a distance of 2,300 feet beyond the 25-mile limit) is entitled to significantly more weight than a site 1.9 miles distant in evaluating a waiver request. Carbondale is essentially a bedroom community of Aspen and the primary employment source for Carbondale residents. As noted in Exhibit 6, the public file will remain in Carbondale and telephone calls are toll free. In light of the proximity of the new main studio location to the 25-mile distance specified in the rule, the facts and common sense dictate a grant of the waiver request.
