

APPLICATION FOR STATION LICENSE
MARCOS RODRIGUEZ
KUUR (FM) RADIO STATION
CH 244A - 96.7 MHZ - 0.09 KW
CARBONDALE, COLORADO
September 2005

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Marcos Rodriguez (“Rodriguez”), permittee of radio station KUUR, Channel 244A, Carbondale, Colorado. Rodriguez herein submits his application for station license to cover the outstanding permit for KUUR (BNPH-20041230AAB). Attached, as Exhibit A, is a calculation of the transmitter power output power for the KUUR transmitter.

There are two special operating conditions/restrictions listed on the KUUR permit. The first condition relates to radio frequency radiation limits at the site. Rodriguez herein restates that he will, in cooperation with other tower users, reduce the power of KUUR or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC’s guidelines.

The second condition notes that the underlying permit for KUUR was issued pursuant to §73.215 of the rules. Rodriguez notes this condition. Based on the foregoing, it is believed that all conditions on the KUUR permit have been satisfied.

As indicated in Question 5 of FCC Form 302-FM, the main studio for KUUR’s operation will be beyond the 25 mile limit allowed in the Commission’s rules from the city center of Carbondale, Colorado. See Exhibit 6 for details.
